

Innovation for solving tomorrow's challenges

General Profile

AcrossLimits is a Maltese registered SME, founded in 2001. Over the last two decades, the company has acquired a wealth of knowledge and experience in various European Union programmes, by participating in over 70 EU-funded projects.

This has led to a vast network of contacts all over the European Union, and an impeccable track record with the European Commission's various institutions.

ANGELE GIULIANO
Director

The Team

AcrossLimits' highly-skilled core team is committed to delivering high quality work, within set deadlines. AcrossLimits also engages a pool of 50+ experts in specific sectors to ensure the highest of standards.

Team Sectors

- Our Experts participate in national, EU and international committees and use their technical expertise to advise on policy development.
- Our Project Managers have years of experience in areas such as entrepreneurship, the environment, IT, gender and youth work, education, digital services, infrastructure, eHealth and more.
- Our Technical team develops software concepts, tools, online learning platforms, commercial websites, and virtual hubs including gamification and interactive experience.
- Our Marketing team produces various content and designs visual communication material for different channels. The team also disseminates project information across an assortment of platforms.

Our Expertise

Over the years, AcrossLimits has built a vast skill set, as well as a network of 50+ experts from various industries, that give any consortium an added advantage by having us as a partner. One of our main strengths is leading Educational work packages, as the company has always been deeply involved and active in the area of education, since it is the basis of tomorrow's workforce and the future of the world's economy.

AcrossLimits offers courses under the brand name TrainingMalta™, an ISO accredited training centre in operation since 2002, offering a rich learning experience made up of theoretical and hands-on tasks in various sectors such as eLearning, Entrepreneurship, Digital Storytelling, Leadership Skills and ISO.

AcrossLimits operates as a remote company with team members across Europe and a physical office in Malta – but has representation offices in collaboration with business partners in Finland, France, Greece, Hungary, North Macedonia, Spain, Switzerland, UAE and UK.

The company is ISO 9001:2018 certified.
