CONNECTING INNOVATION WITH OPPORTUNITY

2025

> Who Are We?

AcrossLimits is an innovation and technology company with over 24 years of experience striving to build connections between companies and Europe, helping businesses grow through funding, procurement, export, networking and more.

We are a strong team of experts in research and innovation, with a portfolio of successful endeavours in all areas of technology.

Here's a snapshot of what we do:

> WOMEN TECHEU

Duration: 2024-2026 | **Project Budget:** €15M

The **Women TechEU** Project takes on the EISMEA funding support scheme for deep tech women entrepreneurs. It runs cascade funding calls giving **€75,000 to 160 female-lead companies** around Europe.

AcrossLimits is the **Dissemination** work package leader, and is also leveraging its business development and entrepreneurial expertise to substantially contribute to the provision of the Programme of Business Acceleration Services.

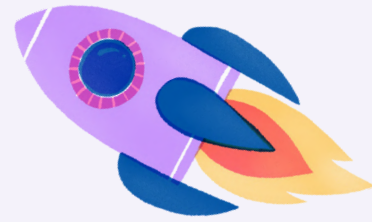

In this important project, we have reached 10,000 followers on LinkedIn as part of our outreach campaign in just one year. [See here](#).

**Funded by
the European Union**

> SPAZJU

Duration: 2025-2026

Contract for the *European Space Agency*

Spazju.eu has been contracted through the European Space Agency (ESA) with the aim to encourage interest in STEM and space through the development of space education resources tailored to the Maltese curriculum. AcrossLimits will design and develop a space-themed e-learning platform and educational game to spark curiosity in space, boost STEM interest and fill existing resource gaps.

future story

> FUTURE STORY

Future Story is a joint venture between **AcrossLimits**, a Maltese company led by Angele Giuliano, and **Grey Matter**, an Emirati firm represented by Kais Badran.

Created to bridge European innovation with Gulf investment, Future Story connects startups — particularly in DeepTech, HealthTech, FoodTech and Proptech — with investors from the Gulf Cooperation Council (GCC).

Our hands-on people-first approach ensures every introduction is strategic, personal, and leads to real growth. At Future Story, relationships aren't a by-product, they are the process.

PartnerHub

Partner-hub.eu is a platform developed by AcrossLimits' team that provides the ideal setting for 1-to-1 matchmaking events. It brings together automated match suggestions with seamless integration into your calendar. The platform is available for event hosting, the process supported by excellent customer service.
