> Who Are We?

AcrossLimits is a dynamic Malta-based company offering European expertise in **technology**, **innovation**, **funding**, **networking**, and **commercialisation**. With over 20 years of experience and participation in 90+ EU projects, we are a trusted consultancy partner for clients across Europe. We use our own experience in managing high-quality projects to help other organisations to reach their targets within their own EU projects.

Our role in projects as of April 2025

> Our Recent Projects

> EYE-TEACH (AI & Education)

EYE-TEACH uses AI and eye-tracking to address declining reading comprehension in European students, post-COVID challenges, and teacher shortages. It equips educators with ethical, AI-powered tools to assess reading and engagement. AcrossLimits leads dissemination, supporting training and implementation. Funded by Horizon Europe.

> Women TechEU (Deep Tech & Equality)

Women TechEU takes on the EISMEA funding scheme for deep tech women entrepreneurs and runs cascade funding calls giving 75K Euro to around 200 different women from around all EU member states and associated countries. AcrossLimits is the Dissemination WP Leader.

> WINBLUE (Blue sector & Equality)

WINBLUE, an EMFAF project, supports women entrepreneurs in blue economy sectors like maritime, tourism, and environmental management. AcrossLimits leads the Training WP, delivering support and gender equality training.

> FINE (Fintech & Investment)

FINE fosters inclusive, cross-border collaboration in Fintech by promoting co-investment and connecting investor networks. It empowers new, young, female, and minority investors through an online InvestorAcademy and supports community-building via matchmaking tools, events, and educational activities.

> Services for EU Projects

AcrossLimits offers tailored support for every stage of EU-funded projects — whether you're coordinating, leading a work package or partnering. Our experienced team ensures smooth implementation, compliance and visibility, helping you focus on what matters most.

> Project Management Services

OPTION A: GUIDANCE & SUPPORT

We will guide you through project execution with monthly check-ins, document reviews, and expert advice on grant compliance, risk management, reporting, and more.

OPTION B: EXTERNALISED MANAGEMENT

Let us handle full project management — from Grant Agreement Preparation to final reporting — so you can concentrate on technical delivery. Includes direct partner coordination, financial reporting, and risk mitigation.

> Subcontracted Project Management Contributions to Projects

Below are examples of projects in which we are currently involved through our subcontracting services, where we provide specialised expertise and operational support to ensure the successful delivery of project objectives.

> ITAMA2

A cross-border initiative using ICT to support non-invasive diagnosis of coeliac disease in children, launched in 2019. ITAMA screened 18,500+ students in Malta and Sicily, promoting early detection and healthcare innovation. AcrossLimits is the communication lead and technical partner, developing the Graphical User Interface and driving software commercialisation.

> PRISM

PRISM is developing Malta's first quantum-secured network under the EU's EuroQCI initiative. Funded by the Digital Europe Programme, it connects public and private partners to deploy quantum key distribution. AcrossLimits supported MQY by identifying funding, creating a pitch deck, and initiating investor discussions for commercialisation.

> DataPACT

DataPACT is advancing ethical, privacy-focused, and environmentally sustainable data/AI practices across Europe by developing innovative compliance tools and frameworks; AcrossLimits is supporting the Malta IT Law, a partner in the project Association with project management responsibilities to help ensure effective coordination and delivery.

> All-Inclusive Communication, Dissemination & Exploitation Package

We take care of your project's outreach from start to finish, depending on your needs. Includes the development of project branding, creation and upkeep of project website, visual designs and templates, content writing, external communications, ecosystem mapping, Communication, Dissemination and Exploitation plan writing and reporting.

> Add-On Services

- **Quality Assurance**: Independent reviews and feedback every 6 months.

- **Project Helpdesk**: Daily management of support desks (e.g. FSTP calls).

- **Crisis Management**: Expert guidance to get struggling projects back on track.

- **Dissemination Training**: Workshops on communication, exploitation and sustainability.

- **Deliverable and EU interim/final reporting support**: Guidance and hands-on support on the development and writing of project documentation required by the EU.

- **Desk research and surveys**: Conducting reviews of academic literature, grey literature, statistical data, and public policy across a variety of domains as well as collecting qualitative or quantitative data through surveys and interviews.

- **Policy writing, and report writing**: Distilling project findings into policy briefs, policy white papers, and detailed technical reports.

- **Translations**: Translation of any document between any of the following languages: English, Maltese, French, Turkish.

- **Ecosystem mapping**: We hunt down and build your project's ecosystem for you.
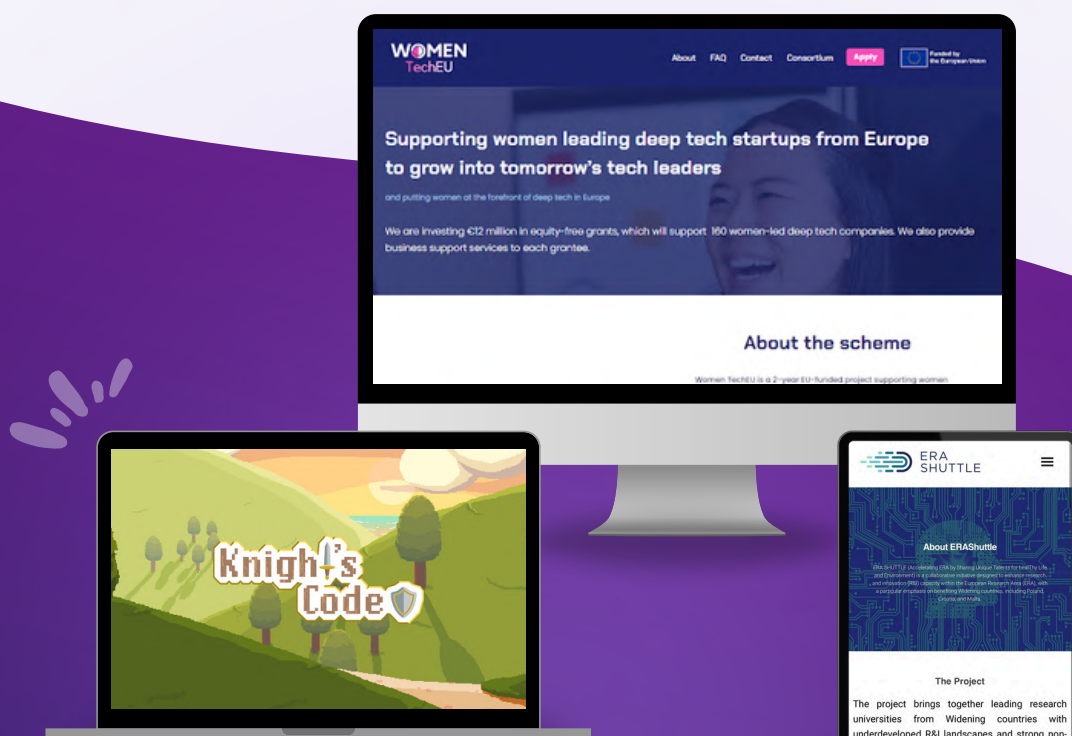

> Services for Branding & Digital Media

> Individual Project Branding & Web Packages

- **Logo, Brand Identity and Business Materials**: Custom logo design, colour palette, and typography, along with branded templates for business cards, letterheads, and presentations.

- **Website Design and UX/UI Development**: Fully customised websites focused on user experience, including interactive wireframes and prototypes prior to development.

- **e-Commerce Solutions**: Bespoke e-commerce websites (WooCommerce), with payment gateway integration, and one-year hosting and domain registration included.

- **Interactive Web Experiences**: Development of engaging websites with interactive or gamified elements, ideal for events, exhibitions, museums or educational outreach.

- **Website, Content Writing and SEO**: Website development with professionally written content and basic search engine optimisation to improve discoverability.

> Specialised Packages

- **Data-Driven Web Solutions**: Sites featuring integrated dashboards for data visualisation and reporting, with secure admin access on a subdomain.

- **Game Development Package**: Creation of simple web-based or standalone games for branding or educational use, with custom design and mechanics.

- **Investor Pitch & Presentation Pack**: Includes brand identity, a one-page website, and a branded presentation template — ideal for startups and organisations seeking funding.

- **European Project Application Pack**: Design of branded materials for EU funding applications, including a dedicated landing page, professional reports, and presentations.

- **e-Learning Pack**: Access a versatile platform supporting multiple file formats, ideal for delivering engaging, flexible online learning experiences.

- **PartnerHub Matchmaking Pack**: Connect with diverse organisations and experts through our dedicated platform, designed for efficient and smart matchmaking across sectors.
