TAILORED TECHNICAL SOLUTIONS

2024

> Our Story

With our roots firmly planted in the innovation and ICT sectors since being established in 2001, AcrossLimits has and continues to grow and evolve. With over two decades of experience under our belt working in a range of industries, we have developed a strong team of experts and technical people, and are continuously working to expand our portfolio of products and services.

- We are proud to be one of the core partners in the **Women TechEU Project**, a Horizon-CSA that supports women-led deep-tech startups, growing in our role in the EU technology related areas.
- Our team of specialists **create custom solutions** to meet the expectations of our clients and partners.
- Our expertise in **e-learning platform development** continues to put us on the map for many of our projects.
- We are expanding our portfolio with the **creation of games** that can be used for training and development.

Our AcrossLimits core team members are based in **Malta, Cyprus, Italy, Greece**, and the **UK**, allowing us to offer a multinational, multilingual experience to clients. Our numbers are complemented by a network cluster of experts: 50+ individuals across a wider range of disciplines who are contracted to work with us when their vertical experience is required.

www.acrosslimits.com

> Tailored Technical Solutions

At AcrossLimits, we pride ourselves on creating customised solutions for our clients and our projects. We have a strong team of experienced developers and designers that can work with your team to provide the tailored solutions to meet the needs of your business.

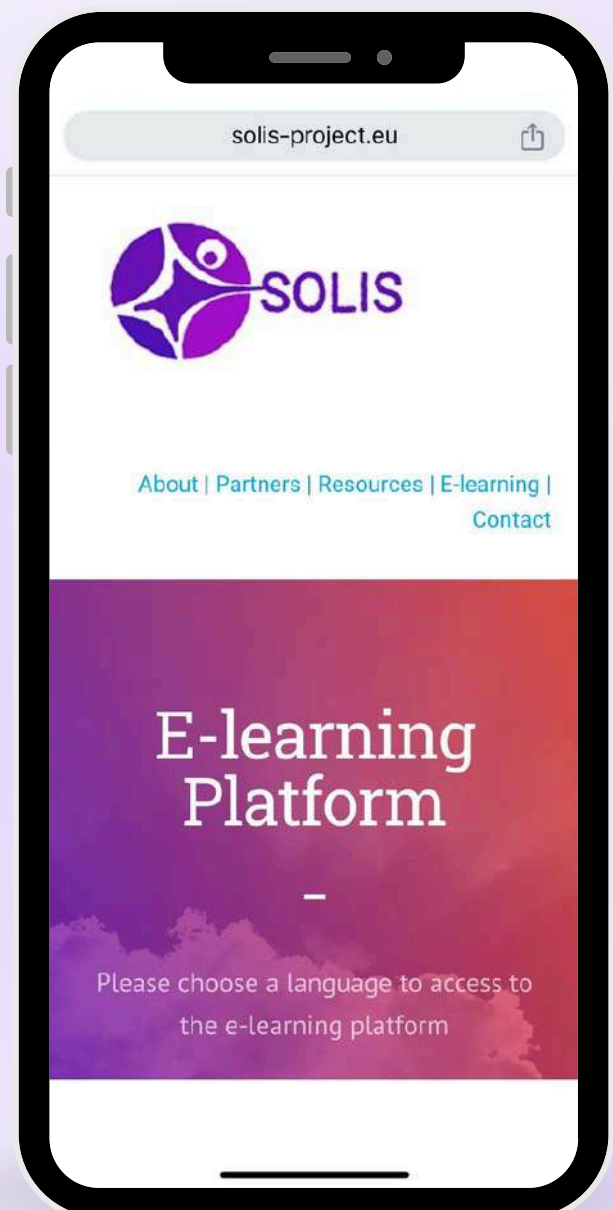

> e-Learning Platforms

- Focus on learner experience
- Interactive
- Have custom e-learning content development
- Provide learning and performance consulting services
- Multilingual platform with fully secure access including availability on mobile devices

EXAMPLE

As part of the EU funded project SOLIS, AcrossLimits developed a multilingual e-learning platform that can be accessed online.

To have a closer look, please go to www.solis-project.eu/e-learning.

> Website Development and Design

Our IT team is able to provide clients with:

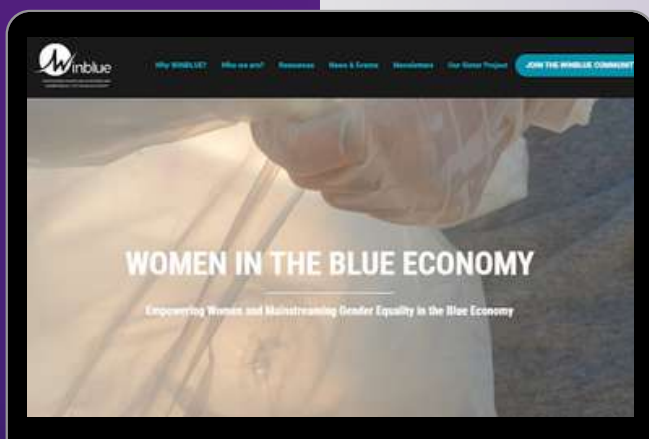

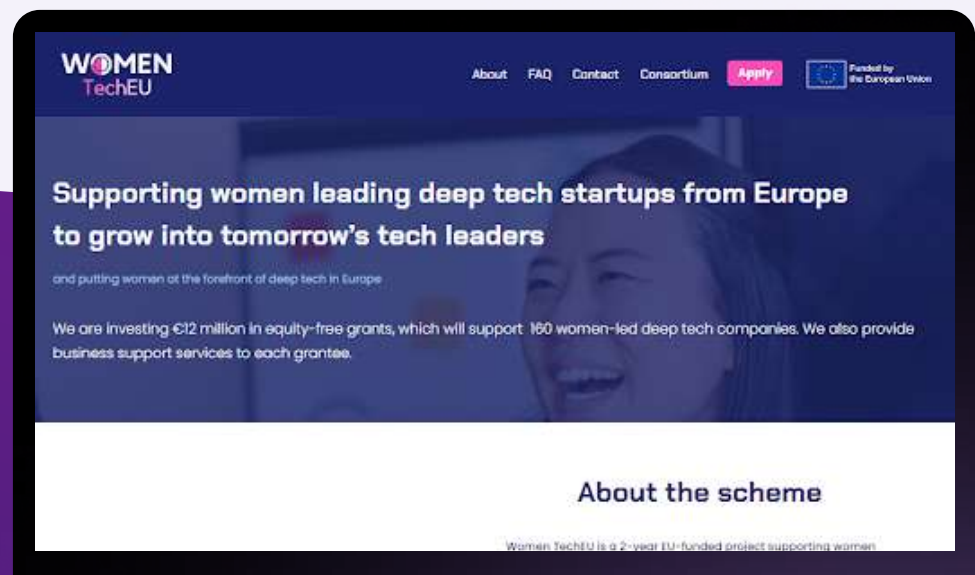

- Customised design for engaging and immersive online experiences.
- Use of various content management systems to ensure a smooth and seamless migration of a current website or the building a new one.
- Our diverse portfolio includes industries such as education, medical, tech and more.

We are the proud designers and developers of countless websites. Here are a few of our recent ones:

www.winblue-project.eu

www.womentecheuropa.eu

www.erashuttle.eu

> Domain and Hosting

Our IT team delivers comprehensive solutions to establish and protect your online presence across multiple jurisdictions, ensuring compliance and safeguarding your brand's digital identity. With scalable, secure hosting and robust cybersecurity, we guarantee performance and data protection as your business grows. Let us handle the complexities, so you can focus on growth confidently.

SECURE DOMAIN REGISTRATION

- Safeguard your brand's identity across a wide array of global markets.
- Maintain a consistent and professional online presence.
- Ensures your digital assets are protected from unauthorised use or cyber threats.

HOSTING SERVICES

- Provide high-performance hosting solutions that deliver exceptional uptime, speed, and security.
- Equipped with a user-friendly management interface, making it simple for your team to monitor and control your website's performance without requiring deep technical expertise.

> App Development

Our IT team is able to provide clients with the:

- Creation of customised mobile apps that enable your audience to engage with your business.
- Development of an effective and efficient tool for your marketing or productivity needs.

All our apps are suitable for every browser and come with a customisable interface to match your branding. Our dedicated technical support team will be available 24/7 online to maintain a seamless operation.

The products that are currently available to be purchased and customised to your needs and requirements include:

> Calendar App

> Matchmaking System

> QRStudio

> Online Catalogue

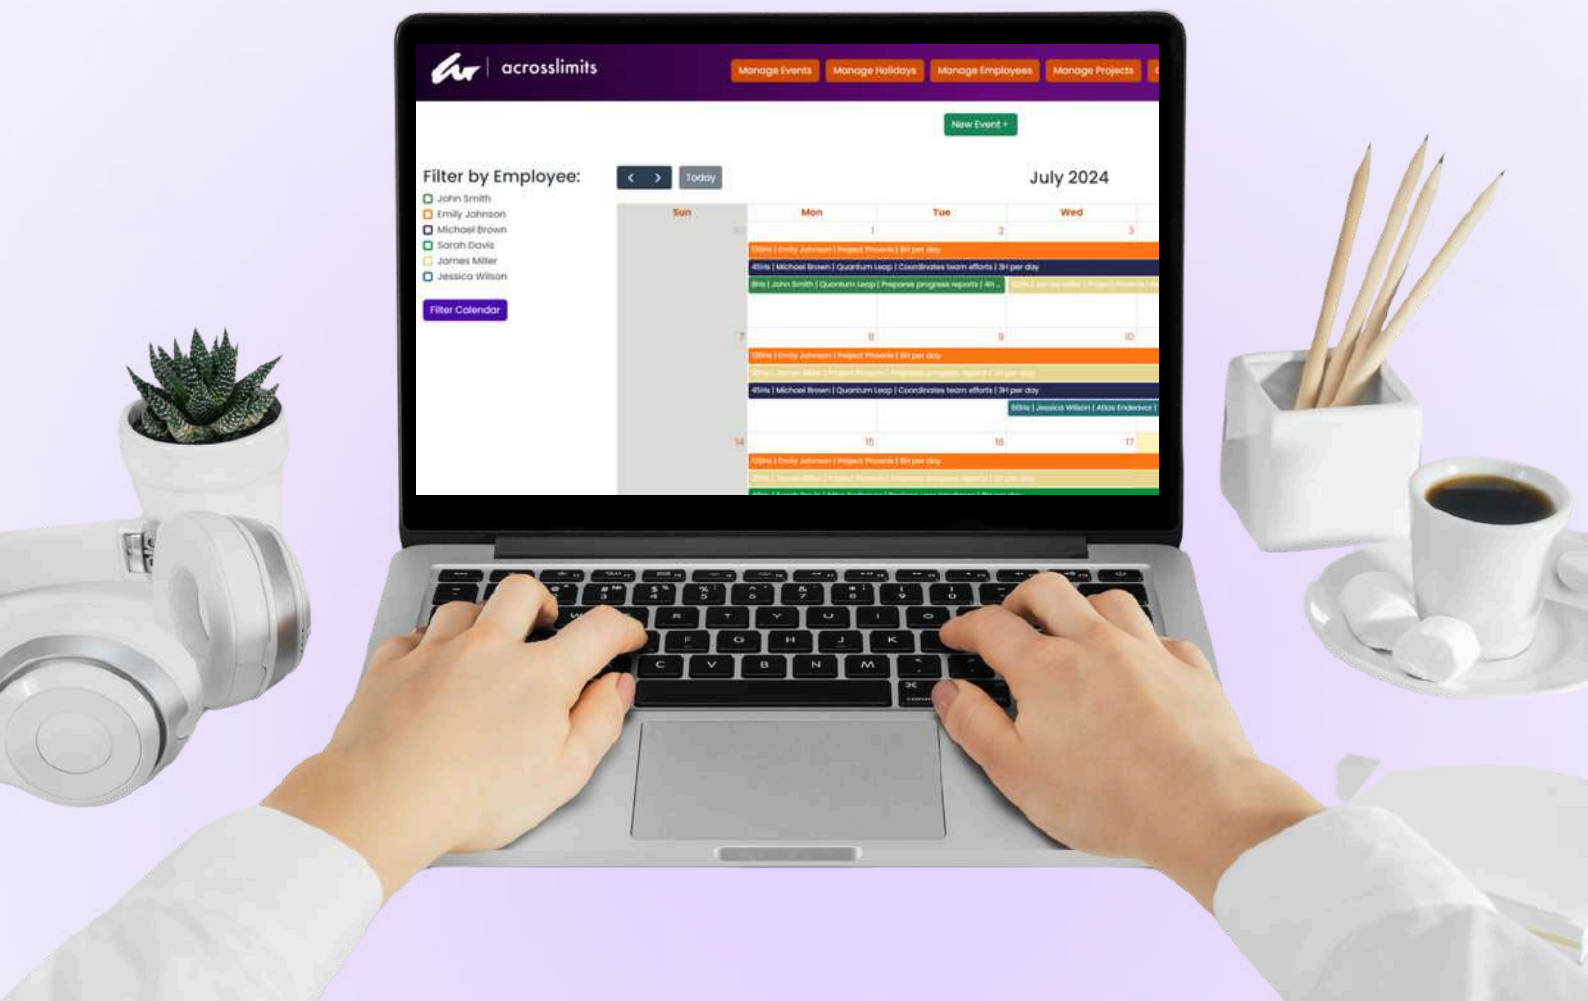

CALENDAR APP

Our **Online Project Calendar** app will elevate your project management, allowing you to visualise your timeline, manage resources effectively, and collaborate seamlessly, all in one user-friendly platform.

Whether you are coordinating a small team or managing a large-scale initiative, our calendar app keeps everyone on the same page, ensuring deadlines and tasks are completed timely and efficiently. Our app is designed to streamline your project management process with features like task assignment, real-time updates, and milestone tracking.

> Game Development

Our IT team is able to:

- Design and development of digital, mobile-friendly games that engage your audience, convey your message and grab their attention.
- Tailor-made games that can be created for entertainment and/or educational purposes.

Whether you are looking to develop a mobile game, be it an educational experience or a complex multi-platform adventure, our expert team can work with you to bring your vision to life with stunning graphics, intuitive gameplay and a great user experience.

We have debuted two browser based games that are readily available for you:

Seasons

This is an interactive game that tests your knowledge on submitting an EU proposal while using an AcrossLimits team member as your avatar.

Knight's Code

Learn the basics of coding by going on an adventure as a knight! Covering everything from HTML5 to PHP, progress your way through the levels as you gain more knowledge.

> Some of our EU projects

Since 2001 the AcrossLimits team has been involved in 90+ successful European projects, alongside a variety of consortium partners. We are very active in various research programs covering diverse areas of interest which include: e-learning, environmental monitoring, Green ICT, telecare, e-government, digital culture and in the promotion of gender equality.

Our projects are funded or co-funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

**Funded by
the European Union**

**Co-funded by
the European Union**

Programme:
Horizon-CSA

Budget:
€15M

Our role:
Communication & Dissemination Leaders

WOMEN TechEU

**Funded by
the European Union**

ABOUT THE PROJECT

Women TechEU is built on the existing foundations of the European Innovation Council (EIC) Women TechEU initiative, and will collaborate between the EC and pan-European deep tech women-led startups to create a gender-balanced entrepreneurship ecosystem. The project will invest €12M in equity-free grants to 160 women-led deep tech companies from all over Europe by providing capacity building support services.

AcrossLimits has the critical **responsibility of building the audience and engaging with stakeholders**, as the project seeks to reach 15,000 startups and receive a minimum of 1,500 funding applications. As the Community Building, Events, Dissemination And Exploitation Work Package leaders, AcrossLimits is responsible for website creation and management, including branding and visual identity, communication packages including brochures, roll ups, visuals, social media, help desk management, webinars, newsletters and the creation of a datahub.

Programme:
Erasmus+

Budget:
€1.6M

Our role:
Matchmaking Platform Leaders

**Co-funded by
the European Union**

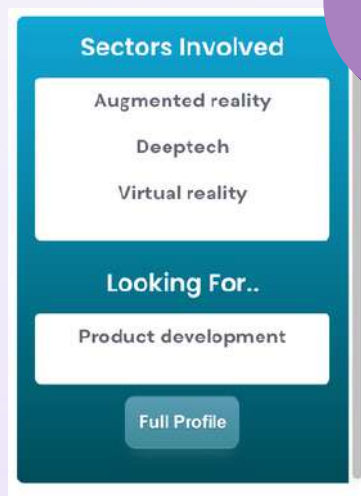

ABOUT THE PROJECT

Venture Alliances aims to develop a novel learning framework that connects private enterprises with researchers and academics through matchmaking and networking initiatives, fostering collaboration and joint ventures. By working with universities, it promotes long-term sustainability and accessibility for future academics. Key elements include Entrepreneurship Residency Programmes, where researchers and academics partner with businesses to gain practical entrepreneurial experience.

AcrossLimits is **responsible for developing the matchmaking platform** that is used by the academics and the entrepreneurs to ensure successful collaboration between academia and industry. The profiles of all registered participants can be accessed via this platform. By using the filter feature (such as country or sector), users are able to easily identify potential collaborations. All these profiles display a quick view of the participants' industry and wants when hovered over, making the search even more user friendly. The full profile indicates a brief description of the company and/or area of study, more in-depth wants and needs, any current matches, and much more.

Programme:
Horizon2020

Budget:
€1.5M

Our role:
Green ICT & Sustainability Leaders

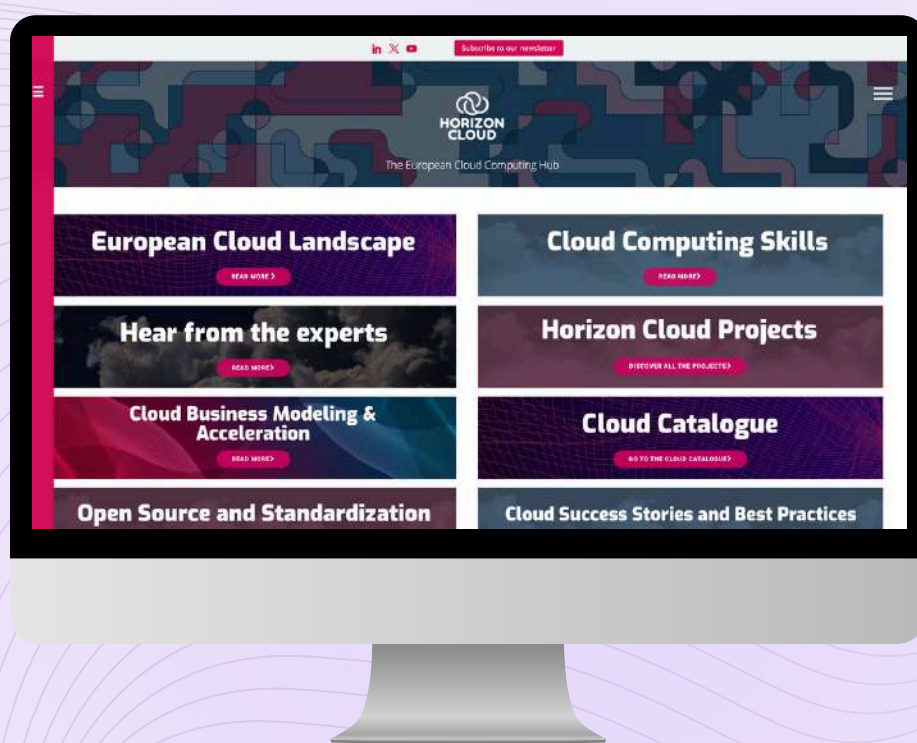

**Funded by
the European Union**

ABOUT THE PROJECT

Horizon Cloud – The Forum for Strategy Focused Cloud Stakeholders project's aim is to develop a roadmap to underpin the planning of the forthcoming research programme in the area of cloud computing. H-Cloud aims to create a sustainable forum of stakeholders representing the cloud computing researchers, industry and users with the aim to define a common vision for the future of cloud computing in Europe.

AcrossLimits was **the lead on Green ICT and sustainability** within H-Cloud, engaging a wide variety of stakeholders across Europe, through its European network of entrepreneurs, SMEs, business angels and business organisations in order to create an interest in supporting the project and developing the appropriate mechanisms to enable this.

> www.h-cloud.eu

Programme:
Erasmus+

Budget:
€380K

Our role:
Development of e-learning platform

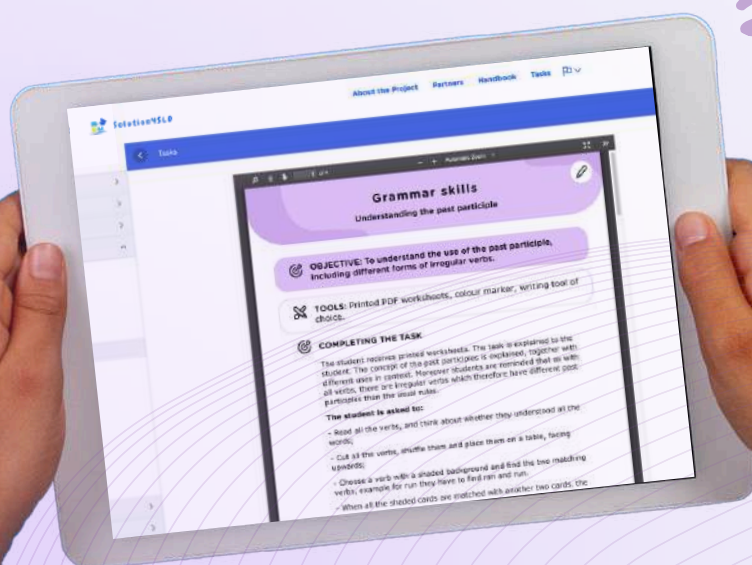

**Funded by
the European Union**

ABOUT THE PROJECT

Solutions For Specific Learning Disabilities is an interactive e-learning platform for schools project aims to adapt and standardise an education system for children with specific learning disabilities, such as dyslexia and dysgraphia, by developing an interactive and inclusive e-learning platform and handbook for schools.

AcrossLimits was **involved in the development of the e-learning platform and the handbook**. The e-learning platform empowers teachers through enabling access to a collection of worksheets and templates, as well as including interactive exercises for children presented through educational games and other audio and verbal exercises. AcrossLimits was also involved in the development of a digital handbook that serves as a theoretical methodological guide to acquaint teachers with children of specific learning disabilities and how to support them.

Programme:
Erasmus+

Budget:
€225K

Our role:
Create ConnectU tool

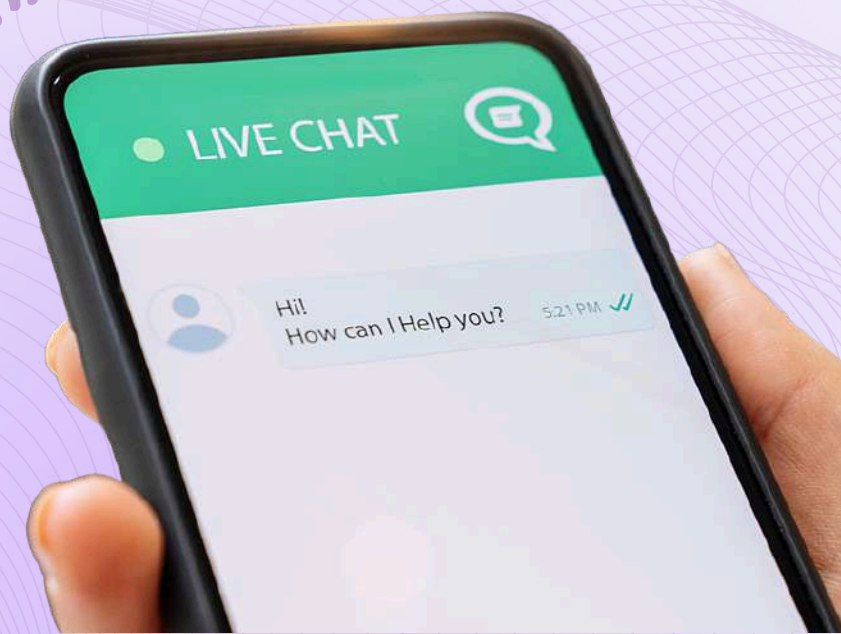

**Funded by
the European Union**

ABOUT THE PROJECT

The **InnovaLab** project aims to stimulate innovative learning and teaching practices in higher education, following from the emergency distance learning that was adopted during the pandemic, creating Innovation Labs in the participating HE institutions where teachers will be able to review their teaching and receive support from peers. AcrossLimits will create the ConnectU tool which will assist this process.

AcrossLimits is **responsible for the creation of the ConnectU tool**, a chatbot based app that will assist the teachers through a series of questions and answers, detecting shortcomings of the users, and providing support in improving or modifying any training model.

> www.digitalinnovationlab.eu

Programme:
Erasmus+

Budget:
€345K

Our role:
Build e-learning platform

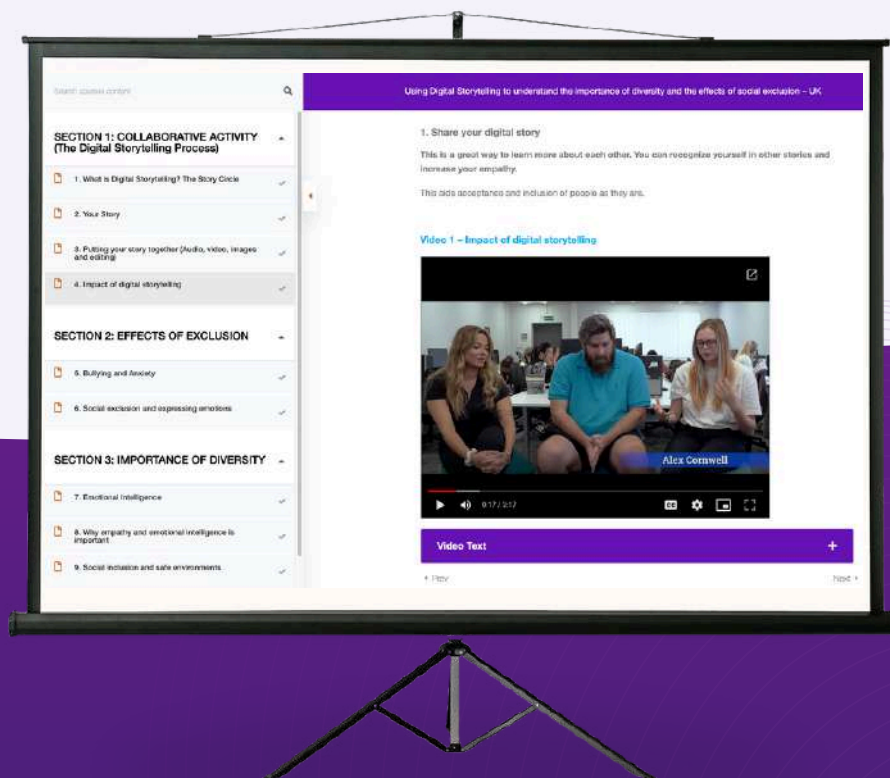

**Funded by
the European Union**

ABOUT THE PROJECT

Developing Wellbeing and Social Inclusion: Achieving Success Through Understanding of Cultural Diversity (SOLIS) project aims to address the core challenges within cultural diversity and discrimination, through interactive and collaborative activities such as digital storytelling.

AcrossLimits was the technical team for **building the e-learning platform and the mobile friendly web portal** for educators.

> Our IT & Digital Media Team

> Emanuele Pristerà | Head of IT and Digital Media

Emanuele leads AcrossLimits' IT and Digital Media team with over 10 years of expertise in web development. He specialises in custom applications, WordPress themes, and advanced solutions, ensuring high-quality, tailored IT services for clients and EU projects.

> Mila Cutajar | Senior Marketing Officer

Mila is a marketing professional and Senior Marketing Officer with AcrossLimits. With her experience in marketing and graphic design, she manages EU project dissemination, leveraging her expertise across various industries since 2013.

> Beth Camilleri | Digital Media Officer
